BROWN PEARL

GRANITE

BRAZIL

BROWN PEARL

Description

Brown Pearl is extracted from a quarry in Brazil. This granite's distinctive small dark-chocolate grains with silver mica, brick reds and greens offer an appealing result. Because of its density, it is very durable and resistant to impacts. It can be used for a variety of applications. Brown Pearl is a tribute to its country's essence, colourful and diverse. Not only does Brazil offer its visitors a fascinating culture, its geodiversity enables it to create a stone such as Brown Pearl, with a unique appearance that will have those who incorporate a parcel of this Brazilian jewel to their decor dreaming of its warmth and charm.
